

SCAN COIN 12 Value Counter

The new SC 12 value counter is a compact and light performer. It features SCAN COIN's unique sensor technology and offers outstanding accuracy combined with reliable functions in one, small package.

The SC 12 value counter has superior technology in combination with small size and easy operation. The unit features automatic rejection of foreign and damaged coins, as well as programmable batch stops. It counts up to 32 coins in three different counting modes.

The LCD ensures easy operation of the flexible software with totals, date and time. Serial interface is standard, which enables connection to a printer, PC or to SCAN COIN cash handling system.

User-friendly hopper.

SCAN COIN's world leading sensor technology.

Reject cup.

Easy-to-use control panel with LCD display.

Compact and easy to use

The SC 12 is a very compact and light value counter, providing reliable counting technology at banks, post offices or in the retail sector. Easy operating and maintenance is a hallmark for the SC 12 and the solid construction combined with few, high quality components ensures minimum service. Thanks to its size, the SC 12 requires little space and is easy to move and handle.

Many flexible accessories

The SC 12 can easily be equipped for tubing or bagging coins at preset quantities.

ACCESSORIES/OPTIONS
